

What is 123 smartbms?

The 123\SmartBMS (Battery Management System) is primarily intended for prismatic cells, but can also be adapted by the end-user for other cell shapes, provided the cell voltage is in the working voltage range of 1.5 - 5 volt. All specifications measured at 3.3V cell voltage and zero ampere through current sensors.

What is 123smartbms battery management system?

Cell-temperature and current are also very important, in order to guarantee a long life. The 123smartbms Battery Management System (or: BMS) is primarily intended for prismatic LiFePO<sub>4</sub>-cells, but can also be adapted by the end-user for other cells like Li-Ion and LiPo, provided the cell-voltage is in the range of 2V to 5V.

What is 123electric smartbms Gen3?

123electric presents the new generation SmartBMS: 123\SmartBMS gen3. An easy to use yet advanced, modular BMS to keep your lithium batteries in perfect condition, increasing the lifespan of the battery pack. We have used the experience and feedback of our customers to develop a new generation BMS. More features, easier installing.

What is 123smartbms Gen3 between board?

The 123SmartBMS gen3 Between Board is an additional module developed to be installed on each cell of the battery as an extension to the... The 123/SmartBMS to USB cable is a handy cable which can be used to display BMS data on the Victron Cerbo/Venus or for custom 123/SmartBMS...

How do I access my 123 smartbms?

Tap settings in the right bottom corner to open the settings section. Tap on the discovered 123\SmartBMS device to make a connection. The App will ask for a password. This password is stored in the BMS to prevent anybody with a phone/tablet from accessing your BMS. The default password is "1234".

What is a 123/smartbms to USB cable?

The 123/SmartBMS to USB cable is a handy cable which can be used to display BMS data on the Victron Cerbo/Venus or for custom 123/SmartBMS... 2 meters VD wire 0.75mm<sup>2</sup>. With this wire you connect the boards to each other. 123SmartBMS set for power wall in collaboration with Victron Multiplus GX 48V.

A smart modular Battery Management System (BMS) to keep your Lithium, LiFePO<sub>4</sub>, Lto, NMC, NCA batteries in perfect condition, extending the life of the battery pack. Simply connect your ...

123SmartBMS is an easy to use yet advanced, modular BMS to keep your lithium batteries in perfect condition, increasing the lifespan of the battery pack. The system measures important data like cell voltages, cell temperatures and ...

The 123SmartBMS to USB cable is a handy cable which can be used to display BMS data on the Victron Cerbo/Venus or for custom 123SmartBMS projects like on the Raspberry Pi. ... This code connects to the BMS via the 123SmartBMS ...

A Smart and Modular BMS to keep your Lithium, LiFePO<sub>4</sub>, Lto, NMC, NCA batteries in perfect condition, extending the life of the battery pack. info@123electric | +31182787974. We ...

SmartBMS is modular in design: each cell gets his own board, and the interconnection is a single wire. A central controller is no longer needed, as the final board reports all its collected data wirelessly to your smartphone or tablet ...
