

Will a lithium-ion battery energy storage system be installed in Cote d'Ivoire?

A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37.5MWp solar PV power plant in Cote d'Ivoire (Ivory Coast). It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV modules for export to the local electricity grid.

Is there a solar power plant in the Ivory Coast?

The first phase of a solar power plant in the northern part of the Ivory Coast has been inaugurated. Financing for the solar power plant in Boundiali was first announced in 2018, while commissioning plans were shared in December 2022.

How much solar power does Ivory Coast have in 2023?

Ivorian Energy Minister Mamadou Sangafowa Coulibaly has also revealed plans to expand the capacity of the Boundiali plant to 80 MW. According to the International Renewable Energy Agency (IRENA), Ivory Coast had 46 MW of installed solar at the end of 2023. This content is protected by copyright and may not be reused.

How much does the Ivory Coast electricity project cost?

The project, which has a total cost of EUR75.6 million (\$81.8 million), is expected to power 70,000 homes, saving 60,000 tons of CO2 equivalent per year. It is creating more than 300 direct and indirect jobs during construction. The project is part of efforts to diversify electricity production in the Ivory Coast.

Will Cote d'Ivoire generate 42% of its electricity by 2030?

This commitment is in line with Cote d'Ivoire's target to generate 42% of its electricity from renewable energy by 2030. Questions or Interest? Please contact us via email at: [scalingsolar@ifc.org](mailto:scalingsolar@ifc.org) Subscribe to our mailing list. Cote d'Ivoire's energy demand is expected to grow at 8% annually, reaching about 9,500 GWh by 2020.

Does Cote d'Ivoire have a solar project?

On October 17, 2019, the Government of Cote d'Ivoire engaged IFC as lead transaction advisor for a 60MW solar project under the Scaling Solar program. This commitment is in line with Cote d'Ivoire's target to generate 42% of its electricity from renewable energy by 2030. Questions or Interest?
