

40u fireproof fire electrical electricity cabinet

Install the cabinet in raised or non-raised floor environments capable of supporting at least 1,180kg (2,600 lbs.) per cabinet. Your system may weigh less, but requires extra floor support ...

Technically, you can build a closet/utility room around that panel, and it wouldn't need a fire alarm sensor or clear indications that it contains the elec panel. If you can fireproof the cabinet with a ...
