

A.J. Colozza and B.G. Gardner, Advanced Modular Power System Electronics Enclosure Thermal Testing, NASA/TM-2019-220011, 2019. Advanced Thermal Management Technologies for High Power Density ...

AMPS completes successful installation, commissioning and testing at CCED's remotely located Electrical Submersible Pump (ESP). "We are pleased to collaborate with AMPS and UES to trial this smart solution and successfully..."

Presented "Power for Space and Aeronautics" at Ohio State University Center for High Performance Power Electronics (CHPPE) Annual review. June 6-8, 2022. Three invited talks at the Advanced Power Systems for Deep Space Exploration Conference, August 30, 2022: "Modular Open Systems Approach for a Robust Commercial Lunar Ecosystem"

Flexible off-grid/on-grid battery energy storage system. The Pixii PowerShaper XD, is a fully integrated IP55 modular energy storage system designed for easy deployment, high energy density, low noise stand alone or grid connected power.

Power Systems Facility. The Power Systems Facility (PSF) provides capability to maintain and enhance Glenn Research Center's leadership in power technology, including development, testing, and validation of ...

Advanced Modular Power Systems (AMPS) is excited to announce that final system testing is complete! The AMPS unit exceeded all our expectations and rigorous requirements. The integration of the battery... Continue ...

Advanced Modular Power Systems (AMPS) Project Managers, David Irimies and Ralph Jansen for project leadership. Study Team Leads, Raymond Beach, and James Soeder of Power Systems Branch for study guidance and power system insights. Monica Guzik, Brianne Scheidegger, Ken Burke, and Ian Jakupca for information on Non-Flow Through Fuel

End-to-end expertise, execution and support for even the most complex systems. Products. Large scale, fully-integrated modular power solutions to keep your business online. Case Studies. Read more about our case studies and ...

Advanced Modular Power Systems (AMPS) is excited to announce that our patented technology has successfully passed all factory acceptance testing and has completed rigorous field trials with 100% availability and reliability.

NeoPower(TM) is the next generation of configurable AC-DC power from Advanced Energy. It offers

best-in-class power density with up to 18 W/in³. Two case sizes, 2400 W, 5-slot and 4000 W, 8-slot, provide multiple options to create a custom power solution.

Advanced Modular Power Systems (AMPS) is excited to announce that final system testing is complete! The AMPS unit exceeded all our expectations and rigorous requirements. The integration of the battery system with the smaller efficient generator and control system performed well under all load conditions.

End-to-end expertise, execution and support for even the most complex systems. Products. Large scale, fully-integrated modular power solutions to keep your business online. Case Studies. Read more about our case studies and implementations for our clients and partners. Company. Overview; Our Team; Diversity, Equity & Inclusion;

Safety approvals secured by Artesyn eliminate the need for an isolation transformer in medical equipment and the multi-output modular structure provides all system power in a single unit. The iHP power system also has industrial safety approvals and meets the SEMI F47 voltage sag tolerance standard for semiconductor processing equipment.

The Advanced Modular Power Systems (AMPS) project is infusing new technology into power systems and components and proving their capabilities through exploration-based ground demonstrations. The AMPS technology portfolio includes the development of modular electronic units which, when combined with standardized interfaces, will provide ...

Power Systems Facility. The Power Systems Facility (PSF) provides capability to maintain and enhance Glenn Research Center's leadership in power technology, including development, testing, and validation of electrical power systems and associated support systems for a variety of aerospace applications in the International Space Station (ISS) and other space ...

We offer full-system solutions, incorporating power, HVAC, life safety and more. Certainty. We guarantee levels of quality, cost and scheduling unmatched by any other construction or system provider. ... When challenges arise, I'm always encouraged by the way we handle those opportunities for growth at Modular Power Solutions." -Tina Smith.
