

Could Afghanistan have the world's largest lithium reserves?

Afghanistan is sitting on deposits estimated to be worth \$1 trillion or more, including what may be the world's largest lithium reserves, a vital component for the energy-storage batteries that are driving the world's transition away from fossil fuels.

What happened to Afghanistan's offshore reserves after the Taliban captured Kabul?

Afghanistan's roughly \$9 billion of offshore reserves were frozen as soon as the Taliban captured Kabul, leaving the central bank with just the cash in its vaults. According to the report, the central bank auctioned off \$1.5 billion between June 1 and Aug. 15 to local foreign exchange dealers, which it said was "strikingly high".

Is Afghanistan rich in Mineral Resources?

While being one of the world's poorest countries that has been at constant war for almost half a century, Afghanistan, at the same time, is a nation that is extremely rich in mineral resources.

Who owns \$7 billion of Afghanistan's foreign reserves?

Approximately \$7 billion of Afghanistan's \$9 billion in foreign reserves are held by the Federal Reserve Bank of New York. The former acting governor of the Afghan central bank announced this on Wednesday, and the Biden administration has already taken steps to prevent access to this money.

What are Afghanistan's key resources?

Below is a breakdown of some of Afghanistan's key resources, as estimated by the country's mining ministry and the U.S. government, as well as their potential monetary value for the war-ravaged Afghan economy if security challenges can be overcome.

Should Afghanistan invest in lithium?

Afghanistan's current Ministry of Mines and Petroleum has identified an abundance of lithium reserves in provinces like Helmand, Nuristan, and Ghazni. Meanwhile, interest from major regional powers like India and China in Afghanistan's lithium has provoked a debate over the best path forward for the country.

Afghan women showing their Adraskan rugs in western Afghanistan.. Weaving rugs in Afghanistan is an ancient tradition and business, which probably existed for thousands of years. In 2008, 2013, and 2014 Afghan rugs won international awards at an international exhibition held every year in Hamburg, Germany. [6] [7] Around 1.2 million people are involved in the rug ...

Mahi [fish in pond, Mahi darham (twisted fishes), or Herati] represents various Persian rug patterns. These patterns come from the city of Herat (nowadays in Afghanistan) and have spread westwards across Persia, Anatolia, and Caucasia. It had many interpretations applied to different types of design in these regions. Also, this applies to both rectilinear and curvilinear renderings.

After the Taliban regained power in Afghanistan, education for girls and boys has been a rare commodity in a country where families must make devastating choices in order to guarantee their survival.

Before storing, the rug should be cleaned by professional rug cleaners to avoid deterioration during storage. We are professional rug cleaning & repair experts in your town. Right rug to fill a space can contribute to the overall character of your home or office space.
