

The Aldelano Solar WaterMaker TM is an atmospheric water generator that can be powered solely by the sun or the grid. This freshwater generator pulls moisture from the air to produce clean drinking water.

Al's heart for ministry combined with his business acumen led to the development of his most recent innovations including the Solar ColdBox - a solar-powered, industrial-sized cold storage unit that offers both refrigeration and freezing ...

Our advanced solar refrigeration and water generation technology allows us to provide those in need with fresh, clean drinking water, cold storage, and renewable power. Our new and ...
