

How did Angola get a power contract?

The contract was put together as follows. Using a loan from GE Capital, a subsidiary of the giant American electricity group, Angola placed an order with Aenergy, which purchased turbines and other equipment built by GE. Although the arrangement appears complicated, it allowed the American group to make use of Leitão Machado's connections.

Does Power Africa support the development of electricity projects in Angola?

Power Africa has supported the development of electricity generation projects in Angola. In addition, various firms have received U.S. Embassy support to move transactions forward. The page shows Power Africa's involvement in the country.

Does Angola have a low electrification rate?

Despite high resource potential and opportunities for cross-border export, Angola's power sector faces significant challenges, including a relatively low electrification rate. [\\*/ANGOLA POWER AFRICA FACT SHEET \\*/](#)Power Africa has supported the development of electricity generation projects in Angola.

Why is Aenergy claiming \$550m in damages from Angola?

Aenergy is claiming \$550m in damages from the Angolan state after being excluded in 2019 from a \$1.1bn deal, split into 13 contracts. The contracts were for the operation of the 750MW Soyo combined cycle thermal power plant - the largest in the country - and the installation of several turbines.

Should Angola increase access to electric power?

Increasing the access to electric power is a high priority for the Government of Angola, which has set targets of 9.9 gigawatts (GW) of installed generation capacity and a 60% electrification rate by 2025.

How will Power Africa support Angola's 60 percent electrification goal?

To support the Government of Angola's goal of 60 percent electrification by 2025, Power Africa and the African Development Bank are working together to expand electricity infrastructure, facilitate new electricity connections for homes and businesses, and ultimately contribute to Angola's continued economic development.
