

Who is APC Storage Solutions SA?

Since becoming the official African distributor of Mecalux, APC Storage Solutions SA has transformed into one of the continent's leading intra-logistical equipment suppliers with over 5 000 warehouse installations. We're maximising the service and support of our bulk filing systems with our new showroom at our office headquarters in Johannesburg.

Where are storage units available in South Africa?

The major locations for storage units in South Africa comprise of the following 6 cities. Other smaller cities where storage is also in demand include: George, Bloemfontein, Klerksdorp, Kimberley and Polokwane. Besides your traditional self storage for personal belongings, there are also specific types of storage for larger items.

How do I find a storage facility in South Africa?

Back in the day, the best way to find a storage facility was to use a phone directory or simply drive around until you found one. Today, the most effective method is to use a website like StorageBuddy. At StorageBuddy we have full oversight on the entire storage industry in South Africa.

How many pallet racking locations are there in Cape Town?

The facility has over 85% area covered with racking providing for 7,000 pallet locations. The warehouse is strategically located with access to the strategic Belcon rail siding at under 5 km, Port of Cape Town at 22 km and fast and easy connectivity to N1 and N2 highways as well as close proximity to Cape Town International Airport.

Cloud Storage by Google helps businesses store, organize, and analyze various documents, audio and video files, images, and other data in a centralized repository. It includes buckets, which lets users create storage spaces by geographic location or region and define bandwidth and access rights. Read more about Google Cloud Storage
