

Who is AQ energy?

Superpowering roofs since 2013. AQ Energy - A brand of Max Bell Sdn. Bhd. Max Bell Sdn. Bhd. was established in 2013 to play a positive role in developing solar PV infrastructure across Malaysia.

What is the main energy source in Yemen?

According to the International Energy Agency, in 2000, oil made up 98.4% of the total primary energy supply in Yemen with the remainder comprising biofuels and waste (International Energy Agency). Natural gas and coal were introduced into the energy mix around 2008, and wind and solar energies were added around 2015.

What is the energy mix in Yemen?

However, Yemen's current energy mix is dominated by fossil fuels (about 99.91%), with renewable energy accounting for only about 0.009%. The national renewable energy and energy efficiency strategy, on the other hand, sets goals, including a 15% increase in renewable energy contribution to the power sector by 2025 (Fig. 11).

Can solar power be used in the telecommunication sector in Yemen?

Alkholidi FHA (2013) Utilization of solar power energy in the telecommunication sector in Yemen. J Sci Technol n.d. 4 pp 4-11 Alkholidi AG (2013) Renewable energy solution for electrical power sector in Yemen.

Why did AQ energy rebrand?

Our rebranding to AQ Energy took place in 2022 to reflect the involvement of a greater headcount and greater visionaries. It is with a mixed talent pool, that we aim to make solar energy more affordable for everyone. A place to work, and a place to do good. To accelerate Malaysia's transformation into a net-zero carbon economy.

Why is Yemen a good place for solar energy?

Yemen has one of the highest levels of solar radiation in the world, increased solar irradiation availability throughout the year. Yemen has a long coastline and high altitudes of 3677 m above sea level, making it an ideal location for wind energy generation, with an estimated 4.1 h of full-load wind per day.

With rising energy demand and accelerating climate change, sustainable and renewable energy has become ever so important. We take pride in playing a part in that transformation and supporting Malaysia's goal of achieving net-zero ...

IBR Energy focus on its business of exploration & production of Oil resources from the various concession blocks in Yemen which has the presence of gas and crude oil in commercial quantities. The main objective of IBR Energy is to ...
