

Specialist Renewables Manager Octopus Investments Australia has made the acquisition for a 175 MW solar project with battery storage component in Queensland. This will be an addition to the existing wind farm and will pave the way for the largest multi-technology renewable energy hub in the state.

It recently acquired the 220MWh Ardandra solar and BESS project as well as the 180MW Dulacca wind farm in Queensland. Octopus Australia is a relative newcomer to Australian renewables deals.

Octopus Australia's rapidly growing portfolio. Octopus Australia has undoubtedly had a busy year, acquiring the 175 MW solar farm + 400 MWh Ardandra project, which sits adjacent to Octopus' existing 180 MW Dulacca Wind Farm - both of which are in Queensland. In May, Octopus also acquired a 400 MW Hay Plains wind project in southwestern ...

Notably, the single largest among generation projects under construction is Ardandra Storage and Solar in Queensland, which is a hybrid combining 175MW of solar PV with 400MWh battery storage. CEC chief executive Kane Thornton said barriers to large-scale renewables remain due to "the historic lack of leadership, planning and foresight over ...

The Bellambi Heights Battery Energy Storage System is a 408 MW battery capable of providing up to 2 hours of storage and will be supported by associated infrastructure. The BESS is expected to be built in 2 stages at up to 204 MW ...

Hamilton Locke advises JUWI on the sale of the 400MW Hay Plains Wind Project and 175MW Ardandra Solar Project, with an anticipated 400MWh of battery storage to Octopus Investments Australia

The Bellambi Heights Battery Energy Storage System is a 408 MW battery capable of providing up to 2 hours of storage and will be supported by associated infrastructure. The BESS is expected to be built in 2 stages at up to 204 MW per stage or up to 408 MW in one stage.. The Project is located approximately 6.5 kilometres north-west of Gulgong within the Mid-Western Regional ...

They included Octopus Australia's 175MW Ardandra wind, solar and storage project in Queensland, Alinta Energy's solar and storage project in Western Australia and two solar farms by Cleanpeak ...

Octopus Australia focuses on investing in renewable energy assets across Australia including, solar, wind and battery storage, to create an integrated portfolio of renewable assets. Our in-house Investment, Development, Engineering and Grid experts allow us to be closer to our assets and efficiently manage projects across their entire lifecycle ...

Ardandra storage and solar project Austria

One of Octopus Investments Australia's Queensland assets is Ardandra Solar and Storage. Acquired earlier this year, it was the single largest renewable energy generation project under construction in Australia as of August, according to a report from the Clean Energy Council (CEC) trade group. Ardandra combines 175MW of solar PV with a 400MWh ...

Renewables investment company Octopus Australia, a subsidiary of UK-based Octopus Group, has received planning approval from Ipswich City Council for its 1 GWh Blackstone battery energy storage system (BESS) 40 km southwest of Brisbane in Swanbank.. Capable of powering 70,000 homes, Blackstone is currently Queensland's largest BESS ...

commitment, the largest among them being the Ardandra Storage and Solar Project in Queensland, with a capacity of 175 MW. While this quarterly result was an improvement on Q1 2023, when there were no large-scale ... and Solar Project Octopus Australia Hybrid (Wind, Solar, Storage) QLD 175.0 (400) Collie Battery - Stage 1 Neoen Storage WA 219.0 ...

The transaction involves the acquisition of the 175 MW Ardandra solar photovoltaic (PV) farm with 400 MWh battery storage component located in Queensland, Australia. ... Australia. Find data. Regions. ... Octopus Renewables acquires 175 MW Ardandra solar PV project with 400 MWh battery storage component in Queensland from Juwi.

Octopus has already made big inroads into the Australian market via the Dulacca wind farm in Queensland (pictured above), and the neighbouring Ardandra solar and battery project, the Darlington ...

This can store energy that can power up to 70,000 homes. Octopus Australia has secured planning approval from the Ipswich City Council for its one gigawatt-hour Blackstone Battery project which is one of Queensland's largest battery storage facilities.. The project is located near Brisbane and is projected to store energy that can supply power to 70,000 ...

Octopus Investments Australia has acquired a 175-MW solar project with a battery storage component in Queensland, which will add to an existing wind farm to create the largest multi-technology renewable energy hub in the state.
