

When is the Australian energy & battery storage Conference?

The Australian Energy & Battery Storage Conference is set to return in 2025. Mark your calendars for the 24 - 25th of February to join us in exploring the latest advancements in large-scale batteries, community storage, and pumped hydro projects shaping Australia's clean energy future.

Why should you attend the Energy Storage Summit Australia?

If your goal is to meet other industry professionals and create valuable business partnerships to better harness business opportunities in the region, then the Energy Storage Summit Australia is the right place for you. The first edition of the Energy Storage Summit Australia was an event full of life, excitement, and industry connections.

Is Australia a good place to invest in energy storage?

Governments at both a state and federal level are pushing investment and deployment into energy storage, and Australia is widely seen as a very attractive market due to negative pricing, volatility, and opportunity. However, this excitement is not without its obstacles, which the Summit will seek to address.

Can long-duration energy storage scale in Australia?

Whilst it is widely accepted that lithium batteries are the most efficient option now, to reach Australia's renewable targets and develop the best projects, the future seems to lie in long-duration energy storage (LDES). This panel explores how long-duration can scale in the current market, and the excitement surrounding it.

What's happening at Australia's Global Summit?

As legislation and governments look to grow Australia's presence globally, the Summit will explore state developments and markets, from the Northern Territory, Western Australia, Tasmania, South Australia and New South Wales.
