

Who is Avicenne energy?

We are a consulting firm specializing in high growth technology markets. Since 1992, we have rapidly established a solid reputation in Energy and Batteries, where we work with the largest players in the industry and organize a world-class conference, "Batteries". AVICENNE Energy is involved as partner in a large European project: CarE-Service.

Who is Avicenne?

Christophe has acquired extensive experience in marketing, strategy analysis, technology and financial studies for the battery and power management fields. He developed the Battery market analysis for AVICENNE, which serves more than 220 customers worldwide. Christophe has published several annual surveys such as "The Rechargeable Battery Market".
