

Is the Felicity 48300 battery bad for solar?

The Felicity 48300 batteries are yes, reused batteries, which are not bad at all for solar. While lead acid batteries are even worse than the cheapest used lithium iron phosphate (lifepo4) batteries, used lifepo4 batteries are a good option for solar usage. The issue with Felicity batteries is that they are typically under-capacity (around 33% less), and there have been reports of false advertisement.

Should you buy a sunvault Strage Solar System?

What we like: SunPower is a well-known and trusted solar brand and its 10-year/unlimited cycles warranty is on-par with Tesla's. If you're not a Tesla fan and a robust battery warranty is high on your list, the SunVault Strage system offers a great alternative.

How much does a solar battery cost in Puerto Rico?

Wow. I paid about \$2,500 for each battery including all shipping and customs fees to Puerto Rico. I bought by sending a whatsapp message through the Felicity Solar website, then I was forwarded to Cecilia Wu from Felicity who sent me an offer through Alibaba. Maybe mine are different to yours because with these people are full of unknowns.
