

Battery Breakthrough Initiative Submitted via [batterybreakthrough@arena.gov](mailto:batterybreakthrough@arena.gov) 7 October 2024 . AUSMASA |  
1 Who we are and what we do Australia's Mining and Automotive Skills Alliance (AUSMASA) is the Jobs and Skills Council (JSC) responsible for our mining and automotive industries. With a workforce of approximately 632,700

The Australian Renewable Energy Agency has announced that consultation has opened on the Australian Government's \$523 million Battery Breakthrough Initiative. Announced in the 2024-25 federal Budget in May, the Battery Breakthrough Initiative aims to fund projects that enhance the development of Australia's battery manufacturing capability to improve supply ...

"Li-S Energy Ltd welcomes the \$500m commitment to a Battery Breakthrough Initiative in the Federal Government budget. As the leading developer of next generation lithium sulfur batteries in the country, we are excited about the opportunity to work with the Government to support this initiative and ensure Australian battery research and IP is translated into world class ...

The introduction of battery energy storage systems (BESS) facilities will greatly enhance the island's ability to integrate renewable energy into the grid, stabilise power supply, ...

The centrepiece is the \$523.2 million Battery Breakthrough that will provide production-linked incentives to Australian battery manufacturers. This initiative will boost economic resilience by building capability in high value areas of competitive advantage across the battery value chain. Additionally, the \$20.3 million Building Future Battery ...

Breakthrough for Nordic Battery Initiative. Mr. Xi Shen (front left), CEO of Morlus Technology, and Arne Fredrik L&#229;nke (front right), CEO of Elinor, sign the partnership agreement between the two ...

Announced in the 2024-25 Federal Budget in May, the Battery Breakthrough Initiative aims to fund projects that enhance the development of Australia's battery manufacturing capability to improve supply chain resilience and provide opportunities for Australia's economy and workforce in the renewable energy transition.

Consultation has opened on the federal government's \$523 million Battery Breakthrough Initiative, which will be delivered by the Australian Renewable Energy Agency (ARENA). Central to the National Battery Strategy, ARENA will be working closely with the Department of Industry, Science and Resources (DISR).  
ADVERTISEMENT "Energy storage ...

The Australian Government has launched the \$523.2 million Battery Breakthrough Initiative as part of its

2024-2025 Federal Budget, aimed at advancing battery manufacturing capabilities in the country.

\$523.2m Battery Breakthrough. ARENA will deliver Battery Breakthrough. The program will transform Australia's battery industry by helping manufacturers move up the value chain in Australia. As outlined in the National Battery Strategy, the Battery Breakthrough will provide a targeted production incentive. Battery Breakthrough will

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PhotoVoltaic (PV) connections that will allow solar energy to be fed into ...

A renewable energy project worth as much as \$400 million hangs in the balance as Barbados Light & Power Company (BLPC) and the Fair Trading Commission remain at odds over Battery Energy Storage Systems ...

Australian Government announced the \$523.2 million Battery Breakthrough Initiative (BBI) to promote the development of battery manufacturing capabilities in Australia." The Advanced Materials and Battery Council (AMBC) is a not-for-profit member organisation focused on growing the industry at this time of historic opportunity and need.

Announced last May as part of the Federal Budget, the Battery Breakthrough Initiative will work to fund projects that improve the development of Australia's battery manufacturing capability of both lithium and vanadium batteries, to improve supply chain resilience and create new opportunities for the country's economy and workforce in the ...

Battery Breakthrough Initiative Aims To Decarbonise Supply Chains. Posted on September 12, 2024. The Federal Government has opened consultations for its \$523 million Battery Breakthrough Initiative, being delivered by the ...

Consultation has opened on the Australian Government's \$523 million Battery Breakthrough Initiative, being delivered by the Australian Renewable Energy Agency (ARENA).. Announced in the 2024-25 Federal Budget in May, the Battery Breakthrough Initiative aims to fund projects that enhance the development of Australia's battery manufacturing capability to improve supply ...
