

Bayer, Germany's largest pharmaceutical company, announces the installation of a 2.7 MW solar and 1 MW / 2 MWh energy storage system at its vegetable research and development site in Woodland, California, the US.
...

Enel North America completed a 2.7-MW solar and 1-MW/2-MWh energy storage system at Bayer's vegetable research and development site in Woodland, California. Located in a region historically prone to rolling ...

Bayer has announced the installation of a 2.7 MW solar and 1 MW energy storage system at its vegetable research and development (R& D) site in Woodland, California, to provide 70% of the site's electrical energy demand.

The CCEW Team delivered this landmark arrangement with Bayer and continues to advance the most innovative Pumped Storage Hydropower and Large Volume, Long Duration energy storage project in the ...

Enel North America and Bayer have completed a new energy storage system at Bayer's vegetable research and development site in Woodland, CA that will directly power 70% of the site's energy needs.

The project will power 70% of the energy needs of Bayer's vegetable research and development site in Woodland, located in an area prone to blackouts. The hybrid system will be able to store excess generation for
...

German pharmaceutical giant Bayer has signed a long-term structured renewable energy credit purchase agreement with Idaho-based renewable energy firm Cat Creek Energy (CCE). According to Bayer, this ...
