

The introduction of battery energy storage systems (BESS) facilities will greatly enhance the island's ability to integrate renewable energy into the grid, stabilise power supply, and reduce dependence on fossil fuels. While the exact battery chemistry in use has not been specified, the emphasis on BESS suggests a likely reliance on lithium-ion technology, which is ...

926. A scarcity of flowers has led to an increase in bees foraging at schools, drawn by sugary remnants of snacks and drinks left behind by students, according to Lead Officer for Apiculture and Senior Agricultural Assistant in the Ministry of Agriculture, Bernard Thompson.. Several schools were forced to dismiss students recently after the insects invaded the ...

53. Barbados may have to explore the option of importing bees if it wants to expand the apiculture industry. Senior Agricultural Officer Bret Taylor, speaking during the Estimates debates in the Lower House on Friday, said because local bees are aggressive, there may be a need to "bring in foreign bees".

Towards the end of June, the independent British Commonwealth country's Fair Trading Commission (FTC), ordered that a four-year pilot deployment of battery energy storage systems (BESS) should be ...

Bees are insects responsible for pollinating plants and thus ensuring that food is available for mankind. According to research, there are 16,000 species of these insects, and they can be found in every continent, except Antarctica. NCC Course Instructor, David Small, explained that honey bees first came to Barbados in 1645 with the settlers.

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to

support the grid and unlock stalled Solar PhotoVoltaic (PV) connections that will allow solar energy to be fed into ...

1.1K. C lasses at the Wilkie Cumberbatch Primary School are expected to resume as normal on Thursday following a second disruption caused by bees in two weeks.. But saying that at least six schools have reported issues with bees in recent weeks, the Barbados Union of Teachers (BUT) has called for steps to be taken to address this issue.

224. Efforts are under way to rebuild Barbados' honey bee population. And, the management of the National Conservation Commission (NCC) is encouraging those who participated in its Beekeeping course to establish hives in the apiary at its Codrington, St. Michael location, to move the process forward.

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PV connections. The Ministry of Energy and Business is currently hosting a three-day Procurement Design Workshop with key stakeholders to discuss and make critical decisions with regard to ...
