

Who is anesco battery storage?

Anesco is the UK market leader for utility scale battery storage. Since installing the country's first commercial energy storage unit back in September 2014, we have connected storage capacity totalling 150MW across 33 sites, with a further 250MW of battery projects currently under construction.

Why should you choose anesco battery storage systems?

Our battery storage systems meet the highest specifications, ensuring they perform at their optimal level. Anesco has a long-standing relationship with the major battery manufacturers and all of the batteries come with state-of-the-art fire protection, security and AC systems.

Will anesco build a 50MW battery storage facility near Rothienorman?

Anesco has received planning approval from Aberdeenshire Council to build a 50MW battery storage facility close to the village of Rothienorman in North East Scotland.

What makes anesco a good company?

Anesco has worked quickly and been very responsive. The team's experience and varied backgrounds from within the sector is also very appealing. Anesco is the UK market leader for utility scale battery storage. We installed the UK's first commercial energy storage unit.

What services does anesco offer?

Monitoring and maintenance of utility scale energy storage systems Anesco has a large and established in-house asset management, and operations & maintenance (O&M) service, providing remote monitoring and maintenance for battery assets, along with performance reports that are tailored to our individual customers' needs.

What is anesco's first subsidy free solar park?

Strong track record of success As testament to our innovation and design expertise, in September 2017 Anesco officially unveiled the UK's first subsidy free solar park, named Clayhill. The site combines 10MW of solar with 6MW of energy storage.

UK renewable energy and energy storage company Anesco is to build and maintain 100MW of battery energy storage for investors JLEN and Foresight Solar Fund Limited (FSFL). This includes two 50MW sites, the first ...

The merits of co-located battery storage sites - such as this solar-plus-storage site originally developed by Anesco and now owned by GRIDSERVE - were debated during this year's Energy Storage Summit.

Anesco has now constructed more than 100 solar farms and 30 energy storage facilities, as well as providing

O& M to more than 24,000 sites. In addition to these sites, in September it got given the green light from ...
