

Who is Advanced Power Solutions?

Advanced Power Solutions (APS) is a leading producer of premium quality batteries, with production site located in Poland: Gniezno. Our mission is to provide easy, safe, and sustainable mobile energy solutions. We aim to create a powerhouse of brands that improve consumers' daily lives, all while ensuring environmentally responsible production.

Should Bhutan diversify its energy sources?

In the face of climate change and the need for enhanced energy security, the business case for Bhutan to diversify its energy sources, especially by tapping into alternative renewable energy, is compelling. Bhutan is yet to realize its full potential in terms of renewable energy.

Who makes Advanced Power Solutions batteries 2021?

aps 2021 Advanced Power Solutions (aps), founded in 1970, is a producer of premium-quality batteries. Its plant in Gniezno/Poland has been known for producing alkaline batteries, starting with Zinc/Carbon batteries as part of Panasonic Batteries Europe.

Does Bhutan have an electrification rate?

Over the past decades, Bhutan has ambitiously pursued electrification, especially in rural communities. As a result, the country has achieved a commendable 99.9 percent electrification rate. This has helped shift fuel consumption for cooking, lighting, and heating away from biomass and fossil-based fuels to electricity.

Why does Bhutan still use fossil fuels?

This has helped shift fuel consumption for cooking, lighting, and heating away from biomass and fossil-based fuels to electricity. Yet approximately 70 percent of the energy demand in Bhutan continues to be met by fossil fuel and biomass, in large part because the transport sector is so heavily dependent on it.
