

What is Bhutan's first solar farm?

The Bhutanese government has started construction on the country's first utility-scale solar farm, the 17.38MW Sephu solar project.

What is Bhutan's largest solar project?

The Sephu project will be Bhutan's largest solar facility. Credit: Bhutan ministry of energy and natural resources The Bhutanese government has started construction on the country's first utility-scale solar farm, the Sephu solar project, which boasts a capacity of 17.38MW.

Can solar power plants help Bhutan achieve energy security?

The solar plant in Rubesa is one such initiative which takes Bhutan a step closer to achieving energy security through a diversified and sustainable energy supply mix. The project particularly demonstrates viability of solar power plants on a utility scale.

Why should Bhutan invest in solar power?

Like hydropower, sun is a bountiful resource Bhutan can tap into for producing renewable energy in keeping with our carbon neutrality commitments and also for enhancing energy security through diversification of energy sources. The commissioning and inauguration of the 180kW grid-tied ground mounted solar photo-voltaic power plant

Is grid-tied solar a viable alternative energy source in Bhutan?

The commissioning and inauguration of the 180kW grid-tied ground mounted solar photo-voltaic power plant marks the start of Bhutan's investment in grid-tied solar energy as a viable alternative energy source in the face of soaring domestic demand and climate change.

Who inaugurated a solar power plant in Bhutan?

4 October 2021: The Chairperson of the National Council of Bhutan, Lyonpo Tashi Dorji, inaugurated the 180 kW grid-tied ground mounted solar photo-voltaic power plant at Rubesa, Wangduephodrang today.
