

Bonaire Sint Eustatius and Saba wants solar energy storage

What is Wärtsilä doing in Bonaire?

The technology group Wärtsilä has commissioned its 6 MW /6 MWh energy management and storage system project for its customer ContourGlobal Bonaire on the Caribbean island of Bonaire. With Phase One complete, the island no longer has to curtail wind resources.

Does Bonaire have a 6MW / 6 MWh energy storage system?

Bonaire now hosts a 6 MW /6 MWh energy storage system to reduce excess energy losses by a substantial margin. Wärtsilä's GEMS enables customers to intelligently synchronise power assets within a hybrid system, and new resources can be easily integrated.

Who is Wärtsilä?

Wärtsilä is a global leader in innovative technologies and lifecycle solutions for the marine and energy markets. Why Wärtsilä? The technology group Wärtsilä has commissioned its 6 MW /6 MWh energy management and storage system project for its customer ContourGlobal Bonaire on the Caribbean island of Bonaire.

Will Bonaire achieve its 100% renewable target?

Commissioning of the project puts Bonaire on the path to achieving its 100% renewable target. This is the beginning of a longer-term plan to fully modernise the island's system and add additional capacity and renewable energy generation to the grid.

Who is Wärtsilä energy business?

Wärtsilä Energy Business is leading the transition towards a 100% renewable energy future. As an energy system integrator, we understand, design, build and serve optimal power systems for future generations. Wärtsilä's solutions provide the needed flexibility to integrate renewables and secure power system reliability.

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.
