

As one of the Largest Battery Retail Specialists in Egypt, we stock batteries for most applications, from Standard Car Batteries to Large Marine Leisure Batteries and everything in between. We also rebuild in store many hard to find ...

Bosch battery systems rely on lithium-ion technology. The lithium-ion battery consists of a galvanic cell in which lithium ions migrate between the anode and cathode during charging and discharging. This chemical energy is then converted into electrical energy. Lithium ions have a high energy density and can absorb and hold this energy quickly ...

Egypt is a bridge between North Africa and the Middle East. Cairo, the capital, home to millennia of history, is full of potential and opportunities that Bosch wants to encourage with support for both economic development and infrastructure ...

As one of the Largest Battery Retail Specialists in Egypt, we stock batteries for most applications, from Standard Car Batteries to Large Marine Leisure Batteries and everything in between. We also rebuild in store many hard to find batteries at less cost than the original.

"With Energy Manager, smart-home owners can cover up to 50 percent of their annual energy needs using the electricity they have generated locally," Weiss says. And if the home has its own battery storage unit, this figure can be as high as 70 percent. Bosch aims to make Energy Manager the central power hub for smart homes.

As one of the Largest Battery Retail Specialists in Egypt, we stock batteries for most applications, from Standard Car Batteries to Large Marine Leisure Batteries and everything in between. ...
