

The MILTECH 1000 is a series of MIL-STD media converters that connect 10/100/100 copper to fiber. Orderable options include the use of the 100 as a powered device (PD) or power source equipment (PSE), and the number and types of Ethernet and fiber connections.

M1012 is a military grade rugged 1.25kW/1.5kVA full double conversion on-line 1U UPS. It has internal modular design, which allows it to be easily tailored to almost any customer requirement, while delivering stable, regulated and protected output voltage for the load. Several UPS units can be connected in parallel to support higher loads (up to 6 units for 7.5kW/9kVA total), or in 3 ...

The M3169 is a military AC to DC power supply. This rugged converter accepts an AC input range from 85 to 265VAC, 50/60/400Hz. It provides a single DC output from 3.3V to 300V, up to 1000W with custom outputs available. The M3169 is based on the popular M169 AC to DC Power Supply for airborne, UAVs and ground mobile applications. Designed as an IP67 unit (to withstand ...

Enercon's NEW Super Seal cap sealer is helping packagers achieve perfect hermetic seals with a new feature set that was previously available only on Enercon's more advanced cap sealer models. Integrated options now include monitoring container movement through the sealer, detecting those caps without a foil liner, and rejecting faulty ...

The MILTECH 9022 is a rugged, MIL-STD 1U rack-mountable Layer 2 Ethernet switch with dynamic routing supporting 12 X 10/100/1000Mbps ports and 4 X 1G/10G fiber ports. Designed for MIL-STD-810F, MIL-STD-461E, MIL-STD-1275B.

Enercon Technologies Ltd is a leading designer and manufacturer of military power, PDU and rugged networking solutions for a wide variety of military applications, including avionics, UAV's, aircraft, C4ISR, electronic warfare, ground vehicles, radar arrays, missiles and anti-missile defense, surface ships, submarines and more. We offer Mil-Grade power supplies, power ...

The M9538 is a 100A eight channel power distribution unit, PDU. Each channel of the PDU contains a solid state circuit breaker that is fully programmable for trip current limits, on/off control, channel sequencing, BIT, voltage and current telemetry. The M9538 input range is nominally 28V but can support between 6 to 33V and is designed to meet MIL-STD-1275, MIL-STD-461 and ...

As part of the agreement, Enercon will supply its new E-160 EP5 E2 wind turbine. This features a 5.5MW direct-drive permanent magnet generator, capable of generating more than 21.5GWh of energy. Ea Nam wind farm will also use Enercon's 4MW class E-138 EP3 E2. A total of 98 units of these will be installed throughout Vietnam next year.

EuroCityCard- Slovenija petek, 11. junij 2010. cisto nov EuroRunner za Enercon / Siemens Od Arriva dela v Neustrelitz (DE) novo EuroRunner dizelskih lokomotiv je bilo sprosceno, 223 141. Bel strojno je zdaj last Enercon, vendar ga upravlja egoo Eisenbahngesellschaft od Aurich.

The M4012 is a rugged, highly efficient, military grade 3U VPX 28V DC to DC PSU card that provides six outputs per VITA 62 and is capable of delivering up to 350W of output power with 9-15 Joules of holdup for MIL-HDBK-704-8, LDC201 requirements. Features include: conduction cooling, reverse battery protection, internal EMI filters. The DC input range is 18-50V per MIL ...

Dizajn Botswana, ki ga je navdihnilo divje srce Afrike, uteleza neukroceno duso te podsaharske drzave. Bogati toni spominjajo na lepoto soncnega vzhoda nad savano, cudoviti vzorci pa so poklon velicastnim divjim zivalim, ki kraljujejo na prostranstvih. Dizajn te vabi na popotovanje po velicastni naravi in ti pomaga stk

The M7019 DC to DC power supply is a Single Output, high density, highly efficient military grade rugged DC to DC converter capable of delivering up to 100W output power. Features include; High efficiency, low noise, internal EMI filters and can support parallel operation for higher power applications. The DC input range is 18V - 48VDC.

Driven by a mission to strengthen and build sustainable communities, ENERCON supports our employees in their drive towards positive change. As a company, we support our people across the country, who are actively involved in community-building programs. Our teams are proud to support many charities in their local areas, including:

ENERCON began its road to economical / ecological success when graduate engineer Aloys Wobben founded the company in 1984. A small team of engineers developed the first E-15 / 16 wind turbine with a rated power of 55 kW. To start with, ENERCON systems still featured gearboxes. However in 1992, the changeover to gearless technology came about with the first ...

The Global Leader in Induction Cap Sealing About Enercon Over the past 40 years, Enercon Industries has established itself as the principal provider of induction cap sealing systems across the globe. Enercon. Skip to content. Enercon Industries Ltd | +44(0)1296 330 542 | ...

The MILTECH 918 is an 8 port ethernet switch which can be remotely managed to deliver Layer 2 switching to optimize on-vehicle communications traffic prioritization between IP-based devices such as communication and navigation systems, sensors, video cameras and targeting systems.
