

Who is Botata Energy Ltd?

Botata Energy Ltd (Botata) is a gas exploration and development company which aspires to be a clean energy producer using the coal bed methane (cbm) potential of the Serowe Project in Botswana and combining it with solar power generation. Botata is the operator and owns 70% of the Serowe Project.

How can Botswana improve its energy supply?

This includes increasing the supply and reliability of Botswana's energy supply, reducing the cost of domestic electricity, reducing and ideally removing the need for Botswana to import external energy and creating a revenue stream through the export of cleaner electricity and sale of gas. ..

Who is Energy Laboratories?

Energy Laboratories, Inc., the leader in chemical and environmental analysis for companies throughout North America. Our depth of knowledge and years of experience means we can meet the full spectrum of analytical testing needs for water, waste, soil, air and petroleum products. Need to make an order?

Where is the proposed Energy Hub located in South Africa?

The proposed Hub is 4.6 km from the Morupule coal fired power station with access to the domestic and Southern African Power Pool electricity distribution networks and close to the towns of Palapye and Serowe plus associated highways. We are exploring and developing: the Serowe gas project; solar opportunities and the development of energy hubs.

How can Botswana contribute to decarbonisation?

Meeting Botswana's shortfall in electricity supply and contributing to decarbonisation. Creating a large Southern Africa energy/industrial hub suitable for manufacturing renewable energy and energy storage products, new-age materials, and products aligned with the resources sector.

Is hydrogen production a new high-tech industry in Botswana?

Hydrogen production would be an entirely new high-tech industry in Botswana. There are attractive commercial reasons to use CBM and atmospheric nitrogen to manufacture ammonia, urea and ultimately ammonium nitrate for use in fertilizer, explosives and as additive to diesel fuel.
