

What is a Breitling superocean automatic?

The Breitling Superocean Automatic has a classic "sub" style dive watch case that should seem familiar to most watch enthusiasts. The big advantage the Breitling has over a Rolex Submariner is that the Superocean Automatic comes in five case sizes: 48,46,44,42, and 36mm.

Is the Breitling superocean II 44 water resistant?

The Breitling Superocean II 44 is water resistant to a whopping 1000m which is approximately 3300 ft. This not only ensures the watch to be resistant to such depths but also proves strong enough to withstand the water pressure felt at a depth of 1000m. An impressive achievement manufactured by Breitling.

Is Breitling superocean a good watch?

It reminded me that in its current form, the Breitling Superocean Automatic 42 fulfills its intended purpose flawlessly. The Superocean is a rugged luxury sports watch that is versatile enough for daily wear in almost every setting that will appeal to a wide audience.

What's the difference between Breitling superocean vs Superocean Heritage?

When comparing the Breitling Superocean vs Superocean Heritage, you'll notice the Heritage model retains old-school details like the classic Breitling logo and braided steel bracelet, while offering modern updates such as larger 38mm and 46mm case sizes and a variety of colors.

How much does a Breitling superocean cost?

Pro Tip: Buy the Superocean on the bracelet and buy a Breitling rubber strap (\$75) and tang-type buckle (\$150). For \$225 total it's like having a whole new watch for the summer or a vacation. It's well worth it.

How many generations of Breitling superocean are there?

There are three distinct generations of the Breitling Superocean, the first the 38mm 1004 and the 807. The Superocean 1004 featured an automatic B125 movement with 3 hands whereas the 807 was, uniquely, a chronograph featuring a manual winding Venus 175. A lot sets these apart from the crowd, the first being that incredibly atypical concave bezel.

Simply put, the Tudor BB 41 is closer to the 44mm Breitling Superocean Automatic, while the BB58 to the 42mm Breitling Superocean Automatic. 44mm Breitling Superocean Automatic on my 16cm wrist Tudor ...
