

How can Cape Verde meet its goal of 50% renewables?

Cape Verde can meet its goal of 50% renewables today by integrating energy storage. A 100% Renewable System is achieved from 2026, with a 20 year cost from 68 to 107 MEUR. Current paradigm doubles emissions in 20 years and costs ranges from 71 to 107 MEUR. The optimal configuration achieves 90% renewable shares with a cost from 50 to 75 MEUR.

How will the Electra project support the government of Cabo Verde?

Finally, the project will support the Government of Cabo Verde's goal to mobilize private and public capital for energy sector investments, by increasing stakeholders' capacity and supporting the restructuring and privatization of the electricity utility ELECTRA.

What is the energy sector in Cape Verde?

Cape Verde energy sector is strongly characterized by consumption of fossil fuels (derived oil-primary imported oil), biomass (wood) and use of renewable energy particularly wind and solar power.

Does Cape Verde have a wave energy potential?

In the case of Cape Verde, there is one study evaluating the wave energy potential which highlights the resource available, particularly for the northern islands, such as S. Vicente. Unfortunately, the study identifies the wave resource to match that of the wind.

Will Cabo Verde privatize Electra?

" The project will build on recent efforts from the World Bank to support the Government of Cabo Verde in the privatization of the electricity utility ELECTRA. A first step has been taken with the enactment of the power sector reform decree law, supported by the Cabo Verde First Equitable and Sustainable Recovery Development Policy Financing.

Is Cape Verde a developing state?

The archipelago of Cape Verde is a developing state in West Africa with extreme external energy dependency on refined oil imports despite their available solar and wind resources. Aligned with the global energy transition, the local government established goals in 2011 aiming at 50 and 100% RES.

Cape Verde is one of 15 SIDS with 100% renewable energy goals. Some of these countries are, like Cape Verde, archipelagos (REN21, 2018). Creating clean, renewable, and reliable energy ...

A partir desse momento, a ACER passou a ser oficialmente integrada por oito empresas cabo-verdianas do sector das energias renováveis, e elas as Associadas da ALER, e guas de ...

Ribeira Alta, known for its challenging terrain and geographic isolation, has historically faced significant

energy access issues. The project introduced a state-of-the-art ...

Praia, May 29, 2024 - In a joint effort to propel the implementation of sustainable renewable energy solutions in Cabo Verde, the ECOWAS Center for Renewable Energy and Energy ...

1 ???&#0183; "Energia 2023" considers that there are strong reasons to invest because the measures and projects referred to above allow increasing access to green and modern electricity, ...
