

How can Egypt store electricity?

Egypt has been looking at a number of ways to store electricity as part of its ambitions to grow renewable energy capacity to cover 42% of the country's electricity needs by 2030. These include upgrading its power grid and incorporating pumped-storage hydroelectricity stations to help store electricity for future use.

Does Egypt need EEHC & Scatec?

The Egyptian Cabinet has already approved the cooperation agreement between EEHC and Scatec. This decision aligns with the government's commitment to increasing the country's renewable energy capacity. By embracing projects like the solar and battery storage initiative, Egypt aims to diversify its energy sources and reduce its carbon footprint.

What is Scatec doing in Egypt?

In 2017, Scatec signed 25-year Power Purchase Agreements for delivery of electricity from six plants totalling 380 MW with the Government of Egypt. Benban site near Aswan in Upper Egypt where Scatec was in 2019 the world's largest one-site project. This is Scatec's largest and our first project using bifacial solar modules.
