

Are solar panels a key investment in Havana in 2025?

The authorities in Havana also intend to support citizens in installing solar panels. The Minister of Energy and Mining, Vicente de la O Levy, informed parliament that in 2025, projects in renewable energy sources, particularly solar panels, will be key investments.

Will Cuba's energy investment strengthen the national energy system?

This investment is expected to significantly strengthen the national energy system. Since October, Cuba has experienced total paralysis of the national energy system three times, caused by a failure at the main Antonio Guiteras power plant in Matanzas in the western part of the country.

Will solar panels increase access to electricity in Las Tunas?

De la O Levy explained that the authorities would support citizens in installing solar panels to increase access to electricity. The wind farm, which has been planned for several years in collaboration with China in Las Tunas, in the eastern part of the island, will be an important element in combating the energy crisis.
