

# Can universal storage cabinets be stacked

Are stacked cabinets right for your kitchen?

While stacked cabinets look best in kitchens with tall ceilings, they can also create a unique design in average height kitchens, too. For those with smaller kitchens who are looking to maximize their storage space, a stacked design might be the best solution. Our JSI Premier Series Is Perfect for Your Budget

How much space do stacked cabinets need?

Stacked cabinets offer kitchens a high-end, custom, modern, or contemporary look and look best in lighter shades. You need at least 1 foot of empty space between the top of your existing upper cabinets and the ceiling. Get quotes from up to 3 pros! Enter a zip below and get matched to top-rated pros near you. What Are Stacked Cabinets?

Should you buy double stacked cabinets?

Before you invest in double-stacked cabinets, check if you have the space. Stacked cabinets are ideal in kitchens with at least 1 foot of empty space above the existing top cabinets. For the ideal proportions, make sure the upper row of cabinets is about half as tall as the row beneath it.

Are stacked kitchen cabinets good for high ceilings?

Stacked kitchen cabinets, like over-fridge cabinets, are a great way to take advantage of storage space in homes with high ceilings. Wondering if you have space for double-stacked upper cabinets? First, check to see the available height. For ceiling heights of at least 10'1", use 30" and 15" wall cabinets.

How tall should stacked cabinets be?

Stacked cabinets are ideal in kitchens with at least 1 foot of empty space above the existing top cabinets. For the ideal proportions, make sure the upper row of cabinets is about half as tall as the row beneath it. If you don't have enough space for stacked cabinets, you'll need to solve your storage problem another way.

What is double stacked cabinetry?

You can still store a variety of things in these areas. But in other cases, they are simply unused or "dead" spaces that collect dust. Now, imagine adding another layer of cabinets to fill this vacant space. Having this upper row of storage is called double stacked cabinetry.
