

What is a battery energy storage system (Bess) in Cape Town?

The City of Cape Town has issued a tender for a battery energy storage system (BESS) with a minimum rated power output of 5 MW and energy storage capacity of 8 MWh. Geordin Hill-Lewis, Executive Mayor of Cape Town, announced this at a gathering on the site of the Atlantis solar photovoltaic (PV) plant.

What is Cape Town's energy strategy?

As part of its long-term energy strategy, the city plans to invest R39.5 billion in infrastructure between July 2024 and June 2027. Furthermore, Cape Town has issued a tender for its first battery energy storage system, which will feature a capacity of 5 MW/8 MWh.

Where is Cape Town building a solar power plant?

The city is currently building a 7 MW solar facility in Atlantis, about 40 km north of Cape Town, with plans to increase capacity to 10 MW in the future. The R200 million (\$11.3 million) project is being managed by the Lesedi Technoserve consortium, which is responsible for the engineering, procurement, and construction.

How can a solar PV & battery storage plant benefit from technical assistance?

The solar PV and battery storage plant is one of the two projects that will benefit from technical assistance. This includes expertise required for specialist studies regarding environmental impacts, engineering design of the project, as well as the means to finance the project.
