

Hawk glued that right inside the clip cup. And then hot glued the LED candle right to that. And I did remove the battery from that. So there"s no battery in there. And then hot glued another ...

I then separated each earbud so the opening between the casing halves was wide enough for the cotton to drop into the gap. I started on a section of cotton without glue and then slid the ...

Hi. Is it okay to use B-7000 Glue for sealing iPhones instead of Adhesive sticker/tape? I have never used any kind of glue for putting back an iPhone screen. I always use Adhesive ...
