

Berkeley, CA - December 13, 2023 - Today, the California Energy Commission (CEC) voted to award Form Energy a \$30 million grant to support the deployment of a 5 megawatt (MW) / 500 ...

For Immediate Release: December 13, 2023. SACRAMENTO -- The California Energy Commission (CEC) today approved a \$30 million grant to Form Energy to build a long-duration energy storage project that will ...

Guyana, a country on South America's north coast, has issued an invitation for bids for energy storage projects with a combined capacity of 34MWh. The Guyana Utility Scale Solar Photovoltaic Program (GUYSOL) is ...

Sacramento - A \$31 million grant from the California Energy Commission (CEC) will be used to deploy a cutting-edge, long-duration energy storage system that will provide renewable backup power for the Viejas Tribe ...

June 23, 2022: Guyana is to develop eight utility-scale solar and battery storage projects in the South American country with investment financing worth around \$83 million, the Inter-American Development Bank (IDB) announced on June 17.

Details of the energy storage fleet, a key component in the state's transition to 100 percent clean energy by 2045, are now available in a new online dashboard unveiled by the California Energy Commission (CEC). The ...

The initial main focus areas of CEC are therefore energy efficiency and public awareness; technical capacity sharing and regional build-out (financial, engineering, and technical); grid modernization and distributed ...

As well as causing strain for the grid, those spikes in energy demand can also result in spikes of high energy prices. While California has become a world-leading market for large-scale battery energy storage, earlier ...
