

I am new to this area and need to buy solar panels, inverters and batteries. I want to save money, if I can make money from this system, that would be better. There are many brands in the market, I noticed the Portable Solar Panel S200 200W from Marstek, and it sells other products, like microgrid products. Anker is another brand that seems good.

Lower efficiency: Cheap solar panels are more likely to be less efficient, usually around 18-21% efficient rather than 20-23% efficient. Affordability hurdle: The upfront cost of solar panels, even cheap ones, is still a significant investment that may only be affordable for some homeowners. Short lifespan: Cheap solar panels may degrade faster than premium ...
