

Is energy storage the key to China's transition to a cleaner economy?

We believe that energy storage is the key to China's transition to a cleaner, more resilient economy. As China's first energy storage industry association, we are proud to: Produce quality research on the projects, players, and policies shaping the industry.

How can energy storage improve China's transitioning economy?

Promote business and government partnerships that strengthen the energy storage industry in China and abroad. Manage demonstration projects to show policymakers how energy storage is the key to China's transitioning economy.

What is the EU's energy cooperation with China?

The EU's energy cooperation with China thus focuses on supporting both sides' clean energy transition, a prerequisite to successfully implement the Paris Agreement and to provide their citizens with clean, sustainable and affordable energy.

Which countries have pumped energy storage capacity?

Europe and China are leading the installation of new pumped storage capacity - fuelled by the motion of water. Batteries are now being built at grid-scale in countries including the US, Australia and Germany. Thermal energy storage is predicted to triple in size by 2030. Mechanical energy storage harnesses motion or gravity to store electricity.

What is the EU-China Energy Platform & why is it important?

The platform also creates opportunities for political and policy exchange as well as new business prospects for innovative companies in the energy sector. Presidents Juncker, Tusk, and Premier Li endorsed the implementation of the platform in the EU-China summit statement, 9 April 2019 and it was launched in Beijing on 15 May 2019.

"Energy storage is regarded as relatively new" in Ireland, Phelan says. The first projects to be handed contracts through the DS3 grid services scheme set up by high voltage ...

The year 2023 saw 21.5 gigawatts (GW) of energy storage systems brought into operation in China, exceeding the previous year by 194%, according to the China Energy Storage Alliance (CNESA). The overall ...
