

What is CIMC Yangzhou base energy storage container?

CIMC Yangzhou Base Energy Storage Container can integrate energy storage converters and energy management systems according to customer needs. Energy Storage Container has the characteristics of simplified infrastructure construction cost, short construction period, high degree of modularization, and easy transportation and installation.

What does CIMC Enric do?

Liquid Food Equipment: CIMC Enric provides the entire process flow of the brewing of beer, fruit juice and milk, the engineering & design of storage and transportation equipment, as well as tank manufacturing and system installation.

Who is CIMC Enric Holding Limited?

CIMC Enric Holding Limited (securities code: 3899.HK), as the spearhead, was based on energy, chemical and food equipment industries and committed to providing key equipment, engineering services and system solutions for transportation, storage and processing of customers and forge the business brand of CIMC ENRIC.

What is the business scope of CIMC Enric?

Today, the business scope of CIMC Enric ranges from pretreatment, liquidation, transport, storage, revaporization, pipeline transportation to the whole natural gas industrial chain applied in the terminal.

How do energy storage containers work?

The components in the Energy Storage Container are divided into two rows and arranged on both sides of the container, leaving a passage in the middle. The details are placed on both sides of the container. They can be positioned on the inner sidewall of the container to improve the reliability of fixation.
