

How can Niger balance its energy mix?

This transformative project, funded by the World Bank through the International Development Association (IDA), will enable Niger to better balance its energy mix, which is currently largely dominated by thermal energy. This initiative is particularly crucial for a country that frequently faces climatic shocks.

How much electricity can a solar farm produce in Niger?

The solar farm will be capable of producing 53 GWh of electricity per year, enough to supply 70,000 homes, or 500,000 people in the capital Niamey, according to the Niger government. The plant is also expected to prevent the emission of 23,000 tonnes of CO<sub>2</sub> equivalent per year.

Will Gorou Banda reduce Niger's energy dependence on its neighbours?

Gorou Banda is also intended to reduce Niger's energy dependence on its neighbours, because "for the Niamey region, we import around 70 MW from Nigeria", said President Mohamed Bazoum at the inauguration ceremony for the new solar farm. All fields marked (\*) are required
