The Classic SL-150 has a graphics panel and ground fault but no arc fault or Ethernet capabilities.

The Tigo EI Residential Solar Solution, a flexible solar-plus-storage solution for home installations, rounds out the Company's portfolio of solar energy technology. Tigo was founded in Silicon Valley in 2007 to accelerate the adoption of solar energy, and its global team supports customers whose systems reliably produce gigawatt hours of ...

MidNite MN15-12KW-AIO All in One inverter. The MidNite MN15-12KW-AIO All In One Inverter exemplifies innovation from a trusted industry leader. This 11,400-watt system features three powerful MPPT charge controllers and three programmable 120/240VAC outputs for load shedding or opportunity loads.

PV DC negatives seem to be common internally. Other AIO's such as Sol-Ark etc. need to have the PV negatives 100% isolated. I'm sure Midnite would still recommend keeping negatives isolated, but it is just something I found interesting. According to the spec sheet, it appears that Midnite would not call this unit transformerless!
