

What is a shipping container solar lighting kit?

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run time.

What are solar lighting fixtures for shipping container?

The Sun-In-One LED lighting fixtures for shipping container solar lighting kits provide you enough light to see to get equipment or supplies out of the container all the way up to high quality lighting to all you to use the Shipping Container as a workshop and have enough light to do fine detailed work.

Are shipping container lights solar powered?

Keep your shipping container illuminated, inside or out with the Shipping Container Solar Powered Lights (15 Lights). These durable and weatherproof lights are powered by the sun, so you can enjoy bright, energy-efficient lighting without the need for electricity.

How do I light a shipping container?

A good secondary option is to have Solar Kit power LED Flood lights shining into the container. They are mounted on the twist tight lock with magnets to provide external lighting around the Shipping Container. We also offer vapor-tight and explosion-proof LED container lights and LED Flood lights.

How can Sun-in-one design a shipping container lighting system?

Sun-In-One can design a system that has lighting on the inside of your shipping Container and Flood Lights mounted to the twist Lock at 1 or up to all 4 corners of the container. The number of lights and the type of lights are all based on your actual lighting needs inside the container.

How many lights do you need in a container?

The number of lights and the type of lights are all based on your actual lighting needs inside the container. If you are using the containers just for general storage, without having to read fine print on items, then 1 or 2 fixtures is all you might need. If it's a larger 40 FT container, then 3 or 4 fixtures might be the solution.
