

How much does Croatia pay for renewable power plants & batteries?

The Government of Croatia has prepared EUR 60 million in subsidies for businesses to install renewable power plants and batteries. Subsidies for energy storage facilities linked with new production capacities are increasingly becoming a standard in European countries. The latest example comes from Croatia.

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brussels for a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

How much does a project cost in Croatia?

The Croatian Ministry of Economy and Sustainable Development said the goal is for companies to produce energy for self-consumption, which should bring down energy costs. Companies can secure between EUR100,000 and EUR2 million per project. Developers can apply for multiple projects, with the maximum amount per single applicant capped at EUR4 million.

Will IE-energy accelerate the decarbonization of Croatia's energy sector?

In addition, it will accelerate the decarbonization of the Croatian energy sector, according to the announcement. IE-Energy is based in Rijeka, Croatia's fourth-largest city. It joined the intraday and day-ahead markets at the Croatian Power Exchange (CROPEX) last year. Documents reveal the project is scheduled to start on December 1.

How much money does Croatia need to install solar power in 2022?

The Croatian government has allocated EUR60 million (\$65.6 million) in subsidies for businesses to install 80 MW of renewables and 20 MWh of batteries. Croatia may only install 2.5 MW of PV in 2022.

How many MW of PV will Croatia install in 2022?

Croatia may only install 2.5 MW of PV in 2022. The Croatian government is providing EUR60 million for companies in the processing industry and heating sector to install front-of-the-meter and behind-the-meter PV arrays, biomass projects, biogas-fired power plants, and battery storage installations.

Croatia will provide some EUR500 million (US\$534 million) in subsidies for battery energy storage system (BESS) technology, a government minister has said. Minister of Economy and Sustainable Development Damir ...

The deadline for submitting proposals is 19 June, 2023, and the Call page indicated that the energy storage technology must be battery-based. In September 2020, Energy-Storage.news reported on a EUR20 million grant from ...

IE-Energy will build the first battery system near Žibenik, with a capacity of 100 MWh and 50 MW of power. The first phase of the project, with a power of 10 MW and a capacity of 22 MWh, should be completed during the ...

The Croatian government is providing EUR60 million for companies in the processing industry and heating sector to install front-of-the-meter and behind-the-meter PV arrays, biomass projects ...

IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe. The European Commission has approved, under the European Union's aid rules, a EUR 19.8 ...
