

Could geothermal energy be a source of sustainable power in Croatia?

SARAJEVO, June 6 (Reuters) - Croatia is eyeing geothermal energy as a major source of sustainable power and has just closed an auction for six productive exploration sites to interested bidders, a top energy official said on Tuesday.

What is energy in Croatia?

Energy in Croatia describes energy and electricity production, consumption and import in Croatia. As of 2023, Croatia imported about 54.54% of the total energy consumed annually: 78.34% of its oil demand, 74.48% of its gas and 100% of its coal needs.

How can Croatia become energy-independent and sustainable?

In order to become energy-independent and sustainable, Croatia counts on its abundant renewable energy resources. In February 2020, the Croatian government adopted a new Energy Strategy for the period until 2030, with an outlook through 2050.

What is Croatia's national energy strategy 2009-2020?

Croatia's National Energy Strategy 2009-2020 has three basic objectives: increase security of energy supply, develop competitive energy system and ensure sustainable energy sector development. These objectives are particularly important for the country

What is Croatia's energy development strategy?

The energy development strategy of the Republic of Croatia until 2030 (and with some expectations for 2050) is a transition to renewable energy sources. Dependence on fossil fuels should be decreased and domestic energy production and use of renewable sources should be increased.

What should Croatia do about fossil fuels?

Dependence on fossil fuels should be decreased and domestic energy production and use of renewable sources should be increased. The goal of the Croatian government is to consume 35,7% and produce 60% of the energy from renewable sources until 2030.

With Geli primarily focused on an end-to-end software platform for the design and installation of energy storage systems including artificial intelligence technologies and Q CELLS on solar, the new parent company wants to use the combined capabilities to take on the commercial and industrial (C& I) segment of the energy market.

GO Energy + Electrolyte Gel 30#215;60ml *Kolicinski popust velja samo pri nakupu kompletnega pakiranja - 30 gelov 22 gramov ogljikovih hidratov na gel Izotonicna formula zagotavlja hitro energijo Prirocno pakiranje 0,3g soli zagotovi ključne ...
