

How does a Honda CR-V hybrid work?

The torque from its electric motors helps the CR-V Hybrid feel quicker than it is, and the continuously variable automatic transmission (CVT) is unobtrusive. Honda fits the hybrid with extra sound deadening and active noise cancellation, which helps cut down on engine droning during prolonged acceleration. 2022 Honda CR-V Hybrid Gas Mileage

Does the 2024 Honda CR-V have a hybrid powertrain?

Like the regular Sport, the Sport-L comes standard with a hybrid powertrain, making it the third trim (after the CR-V Sport and Sport Touring trims) to feature a hybrid. Overall, we like the 2024 Honda CR-V's satisfying blend of comfort, tech and practicality.

Does the CR-V E-FCEV have a hydrogen tank?

Instead of the gasoline tank found on conventional vehicles, the CR-V e:FCEV carries dual high-pressure hydrogen tanks that offer compact energy storage and energy conversion that only releases water as a by-product. Shown in Meteorite Gray Metallic. Hydrogen refueling is quick and straightforward.

How much cargo space does a CR-V Hybrid have?

The CR-V Hybrid offers 33.2 cubic feet of cargo capacity, which is good for the class. But it doesn't quite match the space on offer in the RAV4 Hybrid (37.5 cubic feet) or non-hybrid CR-V (39.2 cubes). Of course, 60/40-split folding rear seats increase the capacity and flexibility of the CR-V Hybrid.

What is a CR-V Hybrid?

The CR-V Hybrid sets the standard for this class thanks in large part to the unparalleled smoothness from its hybrid powertrain. The transition from the electric motor to the gas engine is seamless and rivals that of systems typically found on luxury cars costing twice as much.

How much does a Honda CRV hybrid cost?

For a starting price of \$40,800, the Sport Touring Hybrid comes standard with all-wheel drive, a heating steering wheel, a 12-speaker Bose premium stereo system and more.
