

To promote the use of green energy and reduce the energy costs Aqualectra already supported the schools in Curacao to install solar panels on their roofs. Currently, 23 percent of Aqualectra's power supply is green but the company is aiming for a total of 50 percent by 2020. To do so it is building its first real rooftops solar park in the ...

WIND TURBINES AND SOLAR PANELS . To make Curaçao fully sustainable in 2033, the production of solar and wind energy is of great importance, as is proper energy storage. Wind turbines and solar panels play an important role in this. If traditional power generators are still necessary, then the use of biogas is a more sustainable choice. ...
