The 2024-25 Grant Scheme provides a one-time bonus of EUR750 in the event that both types of investments promoted under the Scheme, i.e. installation of a photovoltaic system and roof thermal insulation, have been implemented and approved for grant within a certain period for the same residence.. The bonus is granted if the following conditions are cumulatively met:

1.2.2 Solar tower technology Solar towers (often called solar central receiver power plants) offer an alternative method of exploiting the energy from the sun in a solar thermal power plant. In this case the collector field consists of an array of heliostats (mirrors) at the centre of which is a tower, as illustrated in Figure 3.
