

What is poweroptimal Elon ® 100?

The innovative PowerOptimal Elon ® 100 incorporates proprietary solar PV (photovoltaic) power management technology to allow for direct solar PV DC to electric geyser power provision and switching and optimized solar power use in a single compact unit.

Does Elon 100 include a geyser?

Geyser not included. The innovative PowerOptimal Elon 100 incorporates proprietary solar PV (photovoltaic) power management technology to allow for direct solar PV DC to electric geyser power provision and switching and optimised solar power use in a single compact unit. This kit is suitable for a 3 to 4 person household - 150 - 200ltr geyser.

Does power optimal supply elon100?

Power Optimal supply our customers with the Elon100. All of our customers are extremely pleased with the result of the Elon system, where they had reductions in their electricity bills and hot water even during cold winter days. I highly recommend the Elon100 to installers and customers. Great product and great support from the guys at PowerOptimal

Are you saving money with the Elon 100?

Thank you Piet for your feedback. We are happy to hear that you are saving money with the Elon 100! Power Optimal supply our customers with the Elon100. All of our customers are extremely pleased with the result of the Elon system, where they had reductions in their electricity bills and hot water even during cold winter days.

The innovative PowerOptimal Elon ® 100 incorporates proprietary solar PV (photovoltaic) power management technology to allow for direct solar PV DC to electric geyser power provision and switching and optimized solar power use in a single compact unit.. The system can be connected to the grid (AC mains) as well, and intelligently switches between ...

W Directors: RA Fearon, FS Moolman, JJ Theron, DM Weber (Non-Executive), IR Jandrell (Independent) E info@poweroptimal Company registration number: 2012/099947/07 WHAT ARE THE BENEFITS? Based on a lifetime cost per kWh of water heating (Levelised Cost of Energy or LCOE), the Elon® brings you the lowest cost of any water ...

On a levelized cost of energy basis, the Elon ® is the lowest cost per unit of energy of any of the options.

The highest cost option is buying electricity from the municipality and gas geysers. Heat pumps continue to incur electricity cost ...

Elon 100. The Elon 100 is connected to the geyser element and thermostat. When the solar modules are producing electricity, the Elon 100 feeds this into the geyser element to heat water, until the water reaches the temperature setting on the thermostat. Depending on the Elon 100 efficiency setting (see Section 3.3) or when the user presses the ...

In 2015, 2017, 2019 and 2022 we published infographics showing Eskom annual tariff increases since 1988 compared to inflation. Eskom tariffs increased by an eye-watering 18.7% in 2023 and again by a painful 12.7% in 2024. This compares to CPI (Consumer Price Index) increases of 5.9% and 4.9% over the same two-year period.

The average residential price of electricity in South Africa in 2021 (based on a middle-class household in the four largest metropolitan areas) is ... Refer to the PowerOptimal Elon™ 100 Technical Specifications or the full selection guide (available on the downloads page) for ...

The Future of Hot Water, Today SAVE MONEY NOW The Elon Smart Water Solution transforms coal-fired electric geysers into smart, solar PV-ready, green appliances. Real-time monitoring and communication

deliver actionable data. This provides ecosystem stakeholders with the necessary insights to support decision-making and proactive management & service delivery.

The PowerOptimal Elon®; operates on a very simple principle: it enables direct current (DC) electricity produced by solar PV modules to be used directly for water heating using a standard electric geyser with alternating current (AC) heating element and AC thermostat. The Elon can run completely off-grid, or with grid AC power as backup.

The PowerOptimal Elon ... Refer to the Elon ®; 100 Easy Selection Guide on this page to download the basic guide or the Elon ... and electricity price increases in the next few years, but typically payback period is in the range of 2 to 4.5 years. With a typical solar module life expectancy of more than 30 years, ...
