Published in September 2014, this map provides a detailed overview of DRC's electricity generation and transmission network. Completed and future projects are marked, with generation sites including hydropower, thermal (including gas turbine), solar and biofuel projects. Transmission lines range from 132kV to 500kV. The map is made using EPS graphics, which ...

The Democratic Republic of Congo has canceled its 2022 licensing round for 27 oil blocks, which aimed to tap into the country's oil and gas resources. In a statement shared on October 11 on the hydrocarbons ministry's X account, the Democratic Republic of Congo announced the cancellation of the oil...

Published as part of African Energy 328, this map provides an overview of power infrastructure in DR Congo. The sites of existing and planned power projects are clearly marked, alongside transmission lines ranging from 220kV to 500 kV. The map is made using eps graphics, meaning that there is no loss of resolution as the image is enlarged.

Environmentalists slam DR Congo oil block auction plan. Issue 459 - 03 May 2022 | 1 minute read. A plan by Democratic Republic of Congo (DRC) to auction 16 oil and gas blocks has attracted opposition from

environmental groups, who accuse President Félix Tshisekedi's government of threatening a sensitive ecosystem. ... African Energy is a ...

The UAE-based company SkyPower Global has bagged a contract from the Africa Finance Corporation (AFC) to install a 200-megawatt clean energy plant in DR Congo. Spanned over four phases, the first phase of ...

Community Solar Can Be A Path To Energy Equity. Fortunately, a new model for solar was just gaining ground, and Solstice's founders saw its potential to bring affordable, clean energy to more households. Community solar allows households to enroll in a local shared solar array and see savings on their electric bill, without any of the extra costs or installation ...

5 ???#0183; Democratic Republic of Congo boasts massive energy generation potential from hydro, wind or solar, but the traditional approach of evaluating hundreds of prospective hydro sites across the country looks increasingly flawed. Overcoming the chronic shortage of available generation capacity is most likely to be achieved by focusing on relatively modest projects ...

The UAE-based company SkyPower Global has bagged a contract from the Africa Finance Corporation (AFC) to install a 200-megawatt clean energy plant in DR Congo. Spanned over four phases, the first phase of the DRC Green Giant project will cost \$200 million (Dh734 million) and create 6,000 job years, Kerry Adler, president and CEO of SkyPower ...

Alexis Gisaro Muvuni, state minister for Infrastructure and Public Works of the Democratic Republic of the Congo (DRC), said Thursday that he was impressed by the techniques witnessed at the Busanga hydroelectric plant in the southeastern province of Lualaba. The DRC and the Chinese side should further promote investment in electricity and infrastructure, and unleash ...

Forecasting of the developmental prospects and potential of Democratic Republic of the Congo by the Institute for Security Studies (ISS) African Futures and Innovation (AFI) programme. The Current Path forecast is divided into summaries based on demographics, economics, poverty, health/WaSH and climate change/energy. A second section then presents scenario for ...

The government is reviewing the \$6bn infrastructure-for-minerals deal concluded by then President Joseph Kabila Kabange and Chinese investors, in the context of a broader examination of mining contracts, finance minister Nicolas Kazadi told Reuters on 27 August.
