

Corrigendum to "Significant increase in comprehensive energy storage performance of potassium sodium niobate-based ceramics via synergistic optimization strategy", energy storage ...

Until now, many kinds of energy storage devices, such as lithium-ion batteries (LIBs), sodium-ion bat... Skip to Article Content; Skip to Article Information; ... Ji-Lei Shi. Key ...

My main research interests include magneto-optical materials, metasurfaces, chiral response, and near-field radiative heat transfer between hyperbolic materials. If you are interested, please ...

202 4. 224. Xinyang Li, Jie Feng, Yanan Li, Na Li, Xin Jia, Yinshui Wang, Shujiang Ding*. Regulating Li + Transport Behavior by Cross-Scale Synergistic Rectification Strategy for Dendrite-free and High Area Capacity Polymeric All ...

An energy saving drive technique for cutterhead of shield tunneling machine was proposed in this paper with a variable speed pump-controlled-motor hydraulic system, in order to reduce the ...

Broad-high operating temperature range and enhanced energy storage performances in lead-free ferroelectrics. The immense potential of lead-free dielectric capacitors in advanced electronic ...

This review investigates the energy storage performances of linear dielectric, relaxor ferroelectric, and antiferroelectric from the viewpoint of chemical modification, macro/microstructural design, ...

Read the latest articles of Energy Storage Materials at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature ... Biru Guo, Xinxin Zou, Yajie Li, Siqi Shi. Pages ...

The frontier utilization in electric vehicles brings an urgent request for the improvements of high energy density in Li-ion batteries. Capable of providing specific capacity ...

Integrated energy conversion and storage devices: Interfacing solar cells, batteries and supercapacitors. Lucia Fagiolari, Matteo Sampò, Andrea Lamberti, Julia Amici, ... Federico ...

Shi Li. School of Chemical Engineering, Sichuan University, Chengdu, 610065 P. R. China ... and renewable energy sources are needed to be effectively integrated into the ...
