

What does Intercontinental Energy do?

InterContinental Energy celebrates its 10th year milestone of pioneering green hydrogen development at scale. Milestones Using upstream wind and solar, InterContinental Energy is committed to accelerating the energy transition through large-scale production of green fuels with partners.

How much electricity does Denmark produce in 2022?

In 2022, Denmark produced 35 Terawatt-hours (TWh) of electricity, with renewable sources representing about 83.3% of total electricity generation. Wind energy led this segment, accounting for 54%, while bioenergy and waste contributed 23%, and solar energy added 6.3%.

What can Denmark learn from the energy crisis?

Denmark can learn from the energy crisis with a view to prepare for the winter 2023-24, which will require a continuous focus on energy savings, renewables deployment, maximised energy production and the scaling up of clean energy investment. One lesson learnt is that demand-side flexibility can be enabled.

Who owns Intercontinental Energy?

In April, the Government of Singapore Investment Corporation (GIC) became the strategic investor of InterContinental Energy. In late 2022, bp took over the operatorship of AREH and the project was renamed the Australian Renewable Energy Hub. In January, Shell joined the GEO consortium as the lead operating partner.

What percentage of Denmark's energy supply is oil?

In 2022, oil represented 37% of Denmark's Total Energy Supply (TES), in line with the International Energy Agency (IEA) average of 35%. Its stable share over the past decade saw a slight decrease in Total Final Energy Consumption (TFEC) from 45% in 2011 to 38% in 2021, primarily due to shifts in the transport sector.

Does Denmark use natural gas?

Natural gas was responsible for 6% of the country's electricity production (2019); in district heating, it had a 20% share of the energy mix (2017). In Denmark, natural gas plays a minor role in the energy system, with strategies aimed at reducing its use and phasing it out entirely.
