Rounding up the top five of the largest renewable energy companies worldwide is Danish wind energy company Vestas, which develops, manufactures and installs wind turbines across the globe. A leader in sustainable energy, Vestas designs, manufactures, installs and service wind energy and hybrid projects that have already prevented 1.9bn tonnes³ ...

One thing is clear, though - to achieve universal energy access using DRE, our efforts need to be focused on localization of energy solutions. By this, we mean that energy solutions need to be locally embedded, and development support should focus on the local enabling environment, localization of finance, and ensuring that local businesses and ...
