How does shouhang's solar power plant work?

Tanks hold enough hot salt to operate the plant's steam turbine for 11 hours, enabling continuous power output with or without sunlight. Shouhang's core business is heat transfer devices, so it was able to develop and manufacture the bulk of the plant's solar equipment in-house, according to Chen.

Where is shouhang power plant located?

Shouhang, meanwhile, erected its own \$3-billion power tower plant on the southwestern edge of the Gobi Desert in Dunhuang, in Gansu province, adjacent to a 10-MW plant that it began building in 2014.
