

Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO₄ battery packs go beyond long-lasting power and durability--they're built with a commitment to innovation in our American battery factory.

Where can I find more information about Dragonfly energy?

For more information about Dragonfly Energy, visit DragonflyEnergy.com. Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) is a comprehensive lithium battery technology company, specializing in cell manufacturing, battery pack assembly, and full system integration.

Is Dragonfly Energy's patented dry electrode battery manufacturing process sustainable?

Results of a Cost & Sustainability Assessment, conducted by Sphere Energy, concludes Dragonfly Energy's patented dry electrode battery manufacturing process is easily scalable, more cost-effective, and more sustainable than the state-of-the-art technology currently available in the market.

How does dragonfly energy work?

The dry electrode battery manufacturing process Dragonfly Energy employs uses a patented spray coating technology to adhere the anode and cathode electrodes, eliminating the need for large, energy-intensive equipment such as slurry coaters, conveyor dryers, and NMP processing equipment.

Can dragonfly energy transform the lithium-ion battery industry?

“Through extensive research and development, we believe Dragonfly Energy is positioned to deliver a transformative cell manufacturing technology, which has the potential to fundamentally reshape the lithium-ion battery industry's approach to viable energy storage solutions.

Is Dragonfly Energy a publicly traded company?

Dragonfly Energy, a Lithium-Ion battery manufacturer, has entered into a definitive agreement for a business combination with Chardan NexTech Acquisition 2 Corp (CNTQ), a special purpose acquisition company. As a result of this deal, Dragonfly Energy will become a publicly-traded company on the NASDAQ.
