

What is Dynamis Energy?

Dynamis Energy is a company that provides technology solutions to transform stranded and discarded waste into energy and other useful products. Dynamis Energy's technology for converting waste to energy is more environmentally sound than landfill and earlier waste destruction and energy creation processes.

Why is the energy sector at a crossroads in Cuba?

Cuba's energy sector is at a crossroads. The country's mostly fossil fuel-fired energy system faces a number of longstanding and serious challenges, including breakdowns at aging power plants, decreasing fuel imports and fuel shortages, and the growing threat of climate change-related disruptions.

How can Cuba build a more resilient energy system?

Building a Cleaner, More Resilient Energy System in Cuba recommends numerous ways by which domestic policy in Cuba can prioritize working towards a more sustainable, resilient grid -- especially by investing in the energy transition-- and ways in which international cooperation can support these goals.

How will Cuba's relationship with other countries impact the energy transition?

Cuba's relationships with other countries will be key to realizing the energy transition. Since 2000, Venezuela has been Cuba's primary source of imported oil. However, political and economic troubles in Venezuela caused oil exports to Cuba to fall by about half, resulting in Cuba increasingly seeking oil imports from Mexico and Russia.

How much does it cost to implement Cuba's energy vision?

The implementation of Cuba's Energy vision has been estimated by Cuban government to cost more than USD 4.0 billion to achieve their 2030 renewable energy target [2,51] of increasing the renewables share to 24% and USD 6.0 billion for the remodified target of 37% .

Is Cuba's energy infrastructure in a precarious state of aging and disrepair?

The report highlights the issue that not only is Cuba's energy infrastructure in a precarious state of aging and disrepair, but also that its entire energy system relies heavily on external aid and imported fossil fuels.
